

# STAR PATTERN

This is for a star worked from the centre out, alternatively there is a pattern for a star worked from points to centre [here](#) - it has a pretty swirly pattern in the centre and is the pattern used for the mario star. This one has straight lines coming from the centre instead.

Size: Approx 15 by 15 inches  
6 x 3.25mm DPN, Sirdar Bonus DK,  
100g x 1 (approx 1/4 ball per star)

This is worked in the round from the centre out but to start cast on 10 stitches on 1 needle and knit a row then purl a row.

1: \*P1, inc1, P1. Rep from \*

2: K

Separate the stitches out onto the remaining needles (3 st on each needle)

Tie loose yarn to live yarn and start to work in the round.

3: \*K1, inc1, K1, inc1, K1. Rep from \* to end.

4 and all evens: K

5: \*K1, inc1, K3, inc1, K1. Rep from \* to end.

7: \*K1, inc1, K5, inc1, K1. Rep from \* to end.

Continue in this fashion until 35 stitches on each needle.

To make the points:

When you have completed you last round, take the live yarn to knit the point on the next needle, ignoring the other 4 for now.

1 and all odds: K1, K2tog, K to end

# STAR PATTERN

2 and all evens: P1, P2tog, P to end

Continue until only one stitch, tie off and cut live yarn. Repeat this process for each needle.

Sew the hole in the middle up.

I make these into cushions, just make 2 of these and sew together around the edges, leaving one point open. Fill with desire stuffing (I used bean bag beans), sew up remaining point!

I've made a load of these in different yarns and patterns. To make the stripey one I just alternated between black and white every 4 rows. The colourful one is made with King Cole Riot - Magic 404. Took a whole ball for that one and I used my Mario star pattern – worked really well cause each side was exactly the same, purely by accident 😊. The sirdar uses about half a ball per cushion.
